**\*NCAA Higher Standards for Eligibility:** The National Collegiate Athletic Association (NCAA) has increased the eligibility requirements for those students that will begin college in August of 2016 and thereafter. These increased standards affect current high school sophomores who will graduate in the spring of 2016 and enter college that fall. The most important changes for eligibility standards are: 1) Student-athletes must earn at least a **2.3 grade point average** in the required core courses and achieve a minimum standardized test score (ACT/SAT) according to the NCAA Initial Eligibility sliding scale. 2) **At least 10** of the required 16 core courses must be earned prior to the start of their senior year. **Seven** of those must be completed in English, math, or science courses.

The NCAA Division I Board of Directors approved the enhancements to the academic standards for incoming freshmen who wish to participate in Division I athletics with the intent "... to ensure that all student-athletes who come to NCAA campuses are academically prepared for the rigors of a college classroom. Collectively, the focus is aimed at enabling student-athlete success on the field, in the classroom, and in life."
